

Reduce Administrative Burden

Assess administrative processes and practice setting workflows to remove redundancies and improve nurse satisfaction.

Optimize

Current resources to ensure interoperability of communication systems.

Utilize

Data and technology to offer flexible schedules, improve workflows, and align strategies.

Redesign

Policies, roles, and workflows to create synergy to reclaim time for patient care.

Engage

Informatics, contracts, administrative, and front line staff to create synergy in care environments.

Eliminate

Duplicative tasks, burdensome policies, and inefficient workflows.
